# ABOUT THE PUBLISHER

**Dream Solutions Media**, established in 2007, quickly bridged the gap between teachers and educators who want to plan a trip and book direct with the providers for best value, best information and best support.

We are an independent, family run business. UK School Trips is our only product and gets our full attention.

Before developing UK School Trips in 2007 we already had 15 years' experience working in demanding, high profile positions in the media industry. It is important to us to be the best at what we do and make sure that the educators using our site find what they need and our school trip providers increase their bookings from educational groups.

## WHY WORK WITH US?

We are only as successful as the school trip providers we work with so we work incredibly hard to increase the bookings of those that put their trust in us and join.

We want long term relationships because that is the only way a business can grow and develop and we are so happy to be renewing 90% of our customers annually and feel this is testament to what a fabulous job we do.

We work with a lot of the UK's best school trip providers, many of whom have been with us since we started in 2007, it has been an absolute joy to see their school trips develop and grow over that time.

Our dream is to work with all of the best school trip providers so that all educators using our site will find exactly what they need.

# HOW WE HELP YOU INCREASE YOUR BOOKINGS FROM SCHOOLS AND OTHER EDUCATIONAL GROUPS

We expose you to over 400,000 school trips searches. On average each of our venues is chosen 1400 times throughout a year by school trip organisers who have searched to their exact requirements, seen a list of options and chosen a particular venue. Not only will you reach those planning a school trip locally to you, you will also reach many new groups that wouldn't normally find you who are from other parts of the UK and 170 countries overseas. The Top 10 is: UK, USA, France, India, Germany, Spain Netherlands, Russia, Malaysia, Italy. In addition, we are used by people from 3440 cities.

Our site offers our users a very detailed and thorough search so that they can see trips for their exact requirements. The search function on our site is something we have invested heavily in and no other site offers such a detailed search function. We provide a template for you to provide everything an educator needs to know, we then set you up with an attractive, informative, well laid out, user friendly listing including images, maps, video links, social media, downloadable packs, risk assessment information, group sizes, prices and much more. We also promote your special offers, news and events.

*Since joining [www.ukschooltrips.co.uk](http://www.ukschooltrips.co.uk) we have noticed a significant rise in bookings year on year from school groups, with the added bonus of repeat bookings for subsequent years. We initially joined for a year to see how much of an impact the site would make on bookings, and have renewed our membership for the 3rd year now. ## WHAT SOME VENUES WE WORK WITH SAY ABOUT US

### Pioneer Activity Centre

*Thank you for the excellent way you have displayed our information, it is clear, uncluttered and professional. I would also like to say how easy it was providing you with the relevant information too, your help and support was appreciated. I know how difficult it can be to measure the results of advertising and as the 'middle man' you may not hear of the impact you are having. So I thought you may like to know that in only the one month since we appeared on UK School Trips we have seen a big, and otherwise unexplained, increase in the number of enquiries being made via our website. This can only be down to UK School Trips, thank you. Thank you once again and we look forward to a jointly successful future together with UK School Trips*
